Experience, expertise, flexibility, and reduced risk

Clients rely on OnX to stay at the forefront of technology trends and serve as a trusted ally for solving complex problems. Our strategic partnerships with leading Canadian technology manufacturers help us maintain the agility, flexibility, and dedicated client focus of a smaller company, coupled with the ability to deliver the resources, scale, and capabilities required by large organizations. We provide custom solutions giving our clients confidence in their IT futures and helping them mitigate financial and operational risk.

Clients benefit from a flexible, thoughtfully managed delivery model to:

- Enable collaboration, workforce mobility, and omnichannel customer experience.
- Modernize e-commerce platforms, web presence, and applications to transform their business digitally.
- Improve data protection and security strategies that address ongoing cyber threats and meet industry compliance requirements.
- Implement fully managed cloud strategies that improve business agility, speed to market, and reduce costs.
- Manage technology infrastructure and maintain 24x7x365 operational uptime.

Technology, covered
